APPLICABILITY

This applies to Southwestern Area Workforce Development Board (SAWDB).

PURPOSE

To establish policy for that authorizes the Chair or Vice Chair to sign contract modifications that increase funding to an existing contract that the board has previously authorized.

BACKGROUND

Previously, contracts modifications from the New Mexico Department of Workforce Solutions would be reviewed for consideration by the Board or Executive Committee for authorization. This process took time to assemble the Board/Executive Committee and authorize the contract modification for additional funds.

ACTION

When a contract that the Board has approved is being modified with an increase in funding, the Board Chair or Vice Chair, with the recommendation of approval by the Administrative Entity, may choose to review and consider approving the contract on behalf of the Board.

The contract modification will be considered for ratification by the Board at their next board meeting.

This policy is only applicable to increases in funding and not decreases in funding.
