The 100% LLSIL is to determine the minimum level for establishing self-sufficiency criteria at the local level. This is the minimum figure locals must set for determining whether employment leads to self-sufficiency under programs. The State may define self-sufficiency levels or self-sufficiency criteria for LWDBs and regions based on appropriate data.

Metro Areas include the cities of Albuquerque, Farmington, Las Cruces, and Santa Fe. All other areas in New Mexico are considered to be Non-Metro Areas.

*For families in the **metro areas** with greater than (>) 6 members, add **\$8,969** for each additional member. For **non-metro** areas, add **\$8,847** for each additional member.
